Redis Module (Session distribution, caching, publish/subscribe, AI Memory etc)	✗	✓	✓	✓

Documentation Services

Features	Open Source	BoxLang Starter	BoxLang +	BoxLang ++
PDF Generation	✓	✓	✓	✓
CSV Module	✗	✓	✓	✓
Extract and Fill PDF Forms	✗	✓	✓	✓
PDF Manipulation	✗	✓	✓	✓
Spreadsheet Module	✗	✓	✓	✓

Integrated Application Server / CommandBox Pro

Only starter,+/++ subscribers will have access to the CommandBox PRO suite of tools

Features	Open Source	BoxLang Starter	BoxLang +	BoxLang ++
High performance servlet engine	✓	✓	✓	✓
High performance web server	✓	✓	✓	✓
JRE/JDK Automatic Management	✓	✓	✓	✓
Portable configuration files (server.json)	✓	✓	✓	✓
Multi-Site Management and deployment*	✗	✓	✓	✓
Multi-Site SSL Management	✗	✓	✓	✓
Operating System Service Manager	✗	✓	✓	✓
Server configuration synchronization (via FORGEBOX)	✗	✓	✓	✓

Multi-Site Management and Deployment Seamlessly manage and deploy multiple sites within a single environment using the powerful Multi-Site Management feature, powered by CommandBox PRO. This capability allows you to:

- Host multiple applications or domains in a single server environment.
- Simplify routing, configuration, and deployments for multi-tenant scenarios.
- Streamline workflows for agencies, enterprises, or developers managing multiple projects.

BoxLang++ includes a ForgeBox Organization Account with up to 5 seats.

Multi-Runtimes

Features	Open Source	BoxLang Starter	BoxLang +	BoxLang ++
Android (Coming Soon)	✓	✓	✓	✓
Cloud (Any Provider)	✓	1 Deploy	✓	✓
Docker Containers (Any Orchestrator)	✓	1 Deploy	✓	✓
Desktop Application	✓	1 Deploy	✓	✓
Embedded Systems (IoT)	✓	1 Deploy	✓	✓
ESP32 (IoT)	✓	1 Deploy	✓	✓
JSR-223 Java Platform Scripting	✓	✓	✓	✓
Native Binaries (Windows, Mac, *Unix)	✓	1 Deploy	✓	✓
CLI Application	✓	1 Deploy	✓	✓
Serverless - AWS Lambda	✓	1 Deploy	✓	✓
Serverless - Google Functions	✓	1 Deploy	✓	✓
Servlet Containers	✓	1 Deploy	✓	✓
WASM Browser	✓	1 Deploy	✓	✓
WASM Container	✓	1 Deploy	✓	✓

Parsers

Features	Open Source	BoxLang Starter	BoxLang +	BoxLang ++
BoxLang (Scripting & Templating)	✓	✓	✓	✓
CFML Script	✓	✓	✓	✓
CFML Templating Language	✓	✓	✓	✓
COBOL (Coming Soon)	✓	✓	✓	✓
Groovy (Coming Soon)	✓	✓	✓	✓

BoxLang has been designed to parse different language syntaxes and transpile them to the BoxLang Language alongside different compatibility modules to bring the appropriate language features into BoxLang.

Language Runtimes integrations

Features	Open Source	BoxLang Starter	BoxLang +	BoxLang ++
Groovy (In progress)	✓	✓	✓	✓
JavaScript (In Progress)	✓	✓	✓	✓
Python	✓	✓	✓	✓
Ruby (In Progress)	✓	✓	✓	✓

BoxLang can run code from other languages inside the BoxLang runtime. The following languages are supported, each with its own caveats and limitations.

Pricing

License Type	BoxLang Starter	BoxLang + (Prod/Non-Prod)	BoxLang ++ (Prod/Non-Prod)
Standard Server VM or BareMetal OS Install	\$749/year <ul style="list-style-type: none"> ✓ 1 Deployment ✓ No Non-Production Env ✓ Unlimited Cores & RAM ✓ 5 Incidents / Year ✓ Premium Modules 	\$1,999/year <ul style="list-style-type: none"> ✓ 1 Non-Production ✓ 2 Non-Production Environments ✓ Unlimited CPU Cores ✓ Unlimited Concurrent Instances ✓ Business SLA ✓ Premium Modules ✓ 1 FORGEBOX Pro Account 	\$3,999/year <ul style="list-style-type: none"> ✓ All BoxLang+ Features ✓ Priority Support + Fixes ✓ Video Call Support ✓ Dedicated Account Manager ✓ Enhanced SLAs ✓ 20% off Consulting Rates ✓ FORGEBOX ORG (5 Users)
Orchestrator Node Docker Swarm member, Kubernetes Pool, etc	\$749/year <ul style="list-style-type: none"> ✓ 1 Deployment ✓ No Non-Production Env ✓ Unlimited Cores & RAM ✓ 5 Incidents / Year 	\$2,999/year <ul style="list-style-type: none"> ✓ 1 Production Orchestrator Node ✓ 2 Non-Production Environment ✓ Unlimited Containers/Pods ✓ Unlimited Lambda Runtimes Business ✓ SLA Dedicated ✓ Slack Channel ✓ 1 FORGEBOX Pro Account 	\$4,999/year <ul style="list-style-type: none"> ✓ All BoxLang+ Features ✓ Priority Support + Fixes ✓ Enhanced SLAs ✓ Yearly Checkups ✓ 1 FORGEBOX ORG (5 Users)

Non-Production: A discounted license tier intended for pre-production environments. Includes all features but is restricted to non-customer-facing use cases.

Server

=Aphysical or virtual server

Node

=Anorchestrator node

At your company, you're the boss. We believe in giving you the freedom and control to run your business exactly how you envision it. Our focus is on empowering your success, not on taking a share of your profits. We're here to provide the tools and support you need to thrive on your own terms!

Please note that if your license included support hours are depleted, you can refill them with support blocks of 5, 10, 15, 20+ hours.

Notes

BoxLang Starter is designed for teams that need access to commercial BoxLang capabilities, but do not require unlimited deployment rights, Business SLA, dedicated Slack support, or the full enterprise support model.

BoxLang+ is designed for production teams that need premium modules, business support, unlimited CPU cores, unlimited concurrent instances, and flexible deployment.

BoxLang++ is designed for enterprise teams that need priority support, enhanced SLAs, account management, video call support, yearly checkups, and consulting benefits.
